

**TransSIGHT**  
CONNECTING THINGS. INNOVATING

## Completing Your Team

Filling the Missing Puzzle Pieces with Transit Experience

### Transit and ITS Project Focused

TransSIGHT specializes in providing transit subject matter experts (SMEs) who can enhance your project team's capabilities. With our expertise in developing, integrating, and deploying transit solutions, we can help you meet and exceed your clients' expectations. Our SMEs bring unique perspectives to your projects planning, design, implementation, or operations to help you succeed.

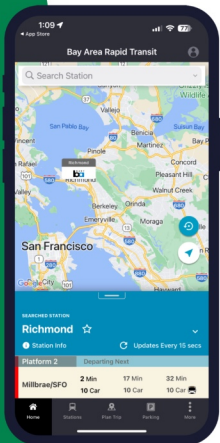

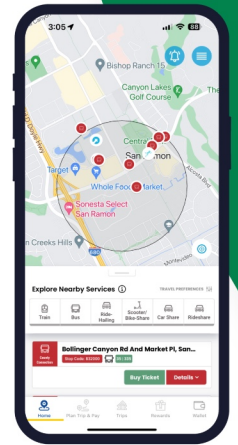

### Operational Services to Clients

TransSIGHT takes complete responsibility for the tasks we undertake and ensure that our clients receive high-quality services that meet their needs. Our team is committed to providing end-to-end operational t that can help you achieve your business objectives. We have a proven track record of delivering projects on time and within budget, and we pride ourselves on our ability to provide exceptional customer service.

### MaaS and Data Solutions

TransSIGHT empowers you to deliver MaaS and expertly manage transit data. With extensive expertise in developing MaaS platforms and offering white label solutions, we provide scalable, flexible solutions that adapt to dynamic market conditions and customer needs. Boost ridership and decrease costs with our innovative solution. Let TransSIGHT complete your team, unlock new possibilities, and elevate your transit services.

# Innovative Transportation Solutions

#### TransSIGHT MOVE

Agnostic tools that provide easy integration with key transportation systems, including AFC, paratransit, parking, and third-party providers. Our tools also offer full trip discovery and intermodal trip planning, updated trip information, payment wallet options, and loyalty incentives to enhance the overall transportation experience.

#### TransSIGHT VIEW

Our business intelligence platform links multiple data streams and generates consolidated reports, including operational, revenue, rider, asset, and NTD reports. These reports provide a decision-making view for operational analysis and planning, as well as a KPI view management tool.

#### TransSIGHT CHOICE

Scenario analysis and predictions, using predictive analysis to improve operational efficiencies and rider access to accommodate new commuting patterns. We model changes to stops, signaling priority, trips, and routes to optimize transportation services. Our dashboard provides an overview of key performance indicators for easy monitoring and management.
